Roblox allows players to sell their own creations (such as hats and T-shirts) with unique names. These names usually contain the item name followed by "item" and sometimes the price. For example, the price of a hat called "Duck" would be listed as Duck item. If a player bought the Duck item for 5 Robux, it would cost 5 Robux once he bought it.

ROBLOX also offers a plugin system similar to most other websites that can give access to nearly all items on its website, except for things like accounts and global objects like chat rooms. Plugin developers can add their own items to ROBLOX through a GUI. However, this is only for private-use plugins and is not available to the public.

I am not a Minecraft addict, but I do enjoy playing that game. However, that is only because my friends and I play it together. Not because of the millions of dollars or diamonds you can get for free on Roblox. People are obsessed with Roblox; my Facebook account was filled with friends who played Minecraft as if they were addicted to crack. They would constantly post pictures about their new lifesize cardboard builds they worked on at home; taking ages-long breaks between each video to watch more videos of minecraft. We've all had friends who were that addicted to Roblox in our time, but I have never met one like Sinead who was "deeply miserable" because she was deprived of playing it. That was always the case whenever anyone mentioned it, I'm sure; parents would frequently ask me if and how I managed to get my grades, and teachers would always ask me if we had any homework. Sometimes they'd even assign us essays to write about our time on Roblox; even though a few months before everyone stopped doing them unless they were mandatory.

I am writing about Roblox today because I am fairly new to the game and am trying to get used to it. I have had Roblox for about 6 months now, and I am sort of over it. However, I really love the game. It is a creative game where you can design an avatar and have a house to decorate. I just wanted to write this because I know there are a lot of people who have been searching for my story on Roblox. Everyone has their own opinions on the game, but as soon as I found out that my parents were coming to visit me on Friday, I found out that they were going to be seeing where I spend most of my time playing games online: namely <https://www.roblox.com/>. I was very and extremely shocked that I hadn't clicked on the site before this - it means I really could have been playing the game for a lot longer. A lot of my friends have played this game and now I'm starting to understand why they say it's such an addicting game!! Not all games are created equal and often we see them develop at an incredibly fast pace which makes us believe that this process will be smooth and easy but it doesn't always happen that way: first of all, people often have unrealistic expectations for themselves and secondly they forget to look at what others are doing and how the market reacts to new games.

There are lots of bugs in this game and we need a way to report them so they can be fixed or can be added into a sticky post. There is not enough room to write here, too much! So what I am going to do is go over the bugs and glitches that are in roblox, then I will tell you how we can get them fixed or changed.
